

## You don't need to go far from school to be adventurous and *Bush Safe*

With our Bush Safety programme we bring the adventure to you.

By creating a mobile service, we can provide all young people with opportunities to participate in progressive, fun Bush Safety experiences that will increase knowledge of basic Bush Safety skills and the Mountain Safety Council **5 simple rules to the Outdoor Safety code**. It is a great way to have a safe, fun bush experience.

**Programming allows us to focus on specific learning objectives or the key competencies you choose. For example:** creative thinking – positive decision making – cohesive teams – experiential learning – education for sustainability – leadership.

TSB TOPEC is a charitable trust serving the schools and community of Taranaki. We offer an exceptionally LOW COST but high quality service with instructors who have years of experience facilitating Outdoor Education.

With a simple and easy booking process please get in touch for further information:
